**From 6 January 2020, in addition to toddlers and school-going children, the Hasselbraam children's center also welcomes **babies** and **toddlers** !**

Hasselbraam children's center is expanding. In addition to pre-school and after-school care, **from 6 January 2020** we also offer professional care for the youngest children aged 0-2.

We are part of Stichting Kinderopvang Haarlemmermeer (SKH), the largest childcare organisation in Haarlemmermeer. SKH has already brought together pre-schools, daycare centers and after school care at various places under the appropriate designation 'childcare center'.

From our good cooperation with primary schools Het Braambos and Optimist International School in Hoofddorp-Floriande, we offer an ideal continuous learning line for your child.
